MARTYNENKO YEVHEN

Backend Python Developer

PROFILE SUMMARY

Backend Developer (Python/Django/REST) with experience delivering secure and scalable APIs. Proficient in frontend development and strong in Linux environments, containerization, and automation. Passionate about building reliable web applications with clean code and efficient workflows.

SKILLS

Languages:

- Python
- JavaScript
- TypeScript
- Shell Scripting (Bash)
- C

Frameworks & Libraries:

- Django
- Django REST Framework (DRF)
- Flask
- GraphQL
- pytest
- NumPy

Databases:

- MySQL (MariaDB)
- SQLite
- Redis
- MongoDB

Tools:

- Git
- Docker
- Docker Compose
- Linux/Unix command line
- OpenAPI (Swagger)
- Webpack
- Gulp
- Nginx
- Unicorn
- Markdown

WORK EXPERIENCE

Full Stack Developer

Personal Project | [Link](#)

April 2025 – September 2025

- Developed a full-stack Django/DRF web application with frontend in TypeScript/HTML/SCSS, providing a platform for creating, organizing, and sharing recipes.
- Achieved ~95% test coverage with PyTest, significantly increasing backend stability.
- Implemented user management with Google OAuth, email activation, and password reset flows.
- Built recipe features: CRUD, soft-delete/restore, moderation, export, likes, and analytics.
- Developed a modular frontend with Webpack, improving load speed and maintainability.

Backend Developer

Team Challenge | Part-Time, Remote

March 2025 – June 2025

- Built RESTful APIs with advanced features (CRUD, filtering, pagination).
- Implemented user authentication and management (registration, login, logout, profiles) using JWT and Google Login.
- Authored API documentation in Swagger/OpenAPI.

- Arduino

Web:

- HTML5
- CSS3 (Sass)
- WordPress CMS

Principles and Approaches:

- OOP
- SOLID
- RESTful APIs

SOFT SKILLS

- Problem-Solving
- Collaboration & Teamwork
- Adaptability & Flexibility
- Entrepreneurial Mindset
- Time Management
- Continuous Learning & Self-Improvement
- Patience & Perseverance

LANGUAGES

English - B2 Upper-Intermediate
Ukrainian - Native
Russian - Native

HOBBIES AND INTERESTS

- **Circuit Design:** Developed an Arduino-based project showcased at a university exhibition.
- **Drawing:** Awarded 2nd place in an exhibition in Odesa.

- Automated repetitive tasks via Bash/Python scripts.
- Developed PyTest test cases, achieving ~50% code coverage.
- Designed and optimized MySQL database structures.

Cybersecurity Intern

Cyber Police, Odesa, Odesa Oblast | Full-Time, Hybrid
March 2024 – June 2024

- Assisted in cybersecurity investigations, observing field operations including detentions and searches.
- Conducted open-source intelligence (OSINT) research, analyzing social media and vehicle tracking data to support investigations.
- Collaborated with a mentor to explore web security technologies for use in diploma projects.
- Documented findings and created reports to improve team knowledge and workflow.
- Supported monitoring tasks, including reviewing surveillance systems and analyzing digital activity.

EDUCATION

Bachelor's degree in computer science

September 2024 - June 2028
Odesa National Polytechnic University
Field of Study "Computer science"

Professional Junior Bachelor

September 2020 - June 2024
College of Communication and Informatization of ONAT
Field of Study "Information technologies"

COURSES AND SEMINARS

- **HarvardX CS50x:** CS50's Introduction to Computer Science
- **HarvardX CS50w:** CS50's Web Programming with Python and JavaScript
- **LinuxFoundationX LFS101x:** Introduction to Linux
- **RangeForce:** Continuing Education Completion
